Immediate joiner

PROFESSIONAL SUMMARY

Senior Backend Engineer with **9+ years** of experience building scalable REST APIs, backend services, and database-driven applications using Python, FastAPI, and PHP.

Experienced in modernizing legacy systems by migrating production PHP services to FastAPI, optimizing high-traffic APIs using Redis and SQL tuning, and improving application reliability through refactoring and performance optimization. Hands-on experience across loyalty, fleet management, travel booking, and agri-trading platforms, with ownership spanning database design, API development, testing, CI/CD pipelines, deployment, and AWS infrastructure in Agile environments.

EXPERIENCE

Senior Software Engineer
Feb 2022 – Sep 2026

ImmplyCloud India Pvt. Ltd. — Annex Cloud loyalty platform — Pune

- Architected scalable backend services in Python (FastAPI) and PHP for an enterprise loyalty platform.
- Modernized legacy PHP modules into FastAPI services, improving maintainability and API response times.
- Optimized the busiest endpoints with Redis caching and SQL query tuning to cut response times.
- Stabilized releases by refactoring fragile legacy modules, reducing production incidents.
- Containerized backend services with Docker and deployed to AWS.

Senior Software Engineer
Sep 2021 – Jan 2022

SMSIPL (StartMySafari Innovations Pvt. Ltd.) — travel & safari booking — Pune

- Led backend development of booking modules using PHP, MySQL, and REST APIs.
- Documented and shipped API endpoints consumed by web and mobile clients.

Senior Software Developer
Jan 2019 – Sep 2021

Fleetain LLP — fleet management & accounting software — Pune

- Built a complete fleet management and accounting system from the ground up using PHP (CodeIgniter), MySQL, and JavaScript.
- Created cost-per-kilometer tracking, maintenance scheduling, and parts lifecycle modules.
- Designed and scaled the MySQL architecture behind real-time fleet analytics.
- Exposed REST APIs and backend services for vehicle, maintenance, and inventory operations.

Software Engineer
Sep 2017 – Dec 2018

NSquare Xperts LLP — agriculture supply chain — Pune

- Delivered commodity pricing data to agricultural businesses through the Trade For Sure platform.
- Integrated backend services and REST APIs for agricultural trading operations.
- Modeled database schemas and backend logic for order management.

SKILLS

LANGUAGES	Python, PHP, JavaScript, SQL, HTML, CSS
FRAMEWORKS	FastAPI, Pydantic, SQLAlchemy, Celery, Laravel, CodeIgniter
DATABASES	MySQL, PostgreSQL, Redis
WEB	REST APIs, AJAX, JSON, jQuery, Bootstrap
CLOUD & DEVOPS	AWS, Docker, CI/CD (Bitbucket Pipelines), Grafana & New Relic (monitoring), Linux
TOOLS	Git, Bitbucket, SVN, Jira
ARCHITECTURE	System design, API design, Performance Optimization
PRACTICES	Backend Architecture, Database Optimization, Legacy Migration, Code Review, Agile & Scrum

PROJECTS

Loyalty

Annex Cloud — Enterprise Loyalty Platform annexcloud.com

Client: Annex Cloud, through ImmplyCloud India Pvt. Ltd.

Tech stack: Python, FastAPI, Celery, PHP, MySQL, PostgreSQL, Redis, REST APIs, Docker, AWS (Lambda), Bitbucket Pipelines (CI/CD), Git, Pytest, New Relic, Grafana

- Developed REST APIs in Python (FastAPI) for loyalty, rewards, campaign, segment and receipt-scanning features used by enterprise brands.
- Created CI/CD pipelines in Bitbucket Pipelines to run automated tests and deploy Docker services to AWS.
- Shipped loyalty and receipt-scanning modules that let enterprise brands reward customer purchases.
- Implemented 5 configurable loyalty features: campaigns, customer segmentation, rewards, coupons, and tier systems.
- Automated high-volume data processing and scheduled operations with cron jobs and Celery background tasks.

Fleet

Fleetain – Fleet Management and Accounting Software fleetain.com

Client: Praxair (now part of Linde) · Internal product: Konduskar Travel

Tech stack: PHP, CodeIgniter, MySQL, REST APIs, JavaScript, jQuery, HTML/CSS, Bootstrap, AWS

- Launched a fleet platform for transportation companies to manage vehicles, drivers, and daily operations.
- Rolled out 7 operations modules: maintenance, complaints, inspections, work orders, workshop activity, spare parts inventory, and fuel tracking.
- Introduced UIN-based (Unique Identification Number) tracking of vehicle parts across the full lifecycle to reduce breakdowns.

Agritech

Trade For Sure (Mandi Central App) tradeforsure.com

Client: Trade For Sure, through NSquare Xperts LLP

Tech stack: Laravel, CodeIgniter, PHP, MySQL, REST APIs, FCM (Firebase Cloud Messaging), jQuery, JavaScript, HTML/CSS, Bootstrap

- Digitized mandi trading operations in a live platform covering commodities, traders, buyers, sellers, and transactions.
- Published live commodity prices and trade updates for traders and farmers across India.
- Supported trading, pricing, and order workflows with dedicated backend APIs.

KEY HIGHLIGHTS

- **Legacy PHP to FastAPI:** Moved production PHP services onto a modern Python stack.
- **Platform from scratch:** Owned one product end to end, from database schema to business reports.
- **4 industries:** Fleet management, Travel booking, Agri-commodity Trading, and Enterprise loyalty.

EDUCATION

Bachelor of Science (Computer Science)

2011 – 2014

Dr. Babasaheb Ambedkar Marathwada University (BAMU)

Aurangabad
